

Consumables for ATMs and payment terminals

Exatec ATM has a **wide catalog** of consumables for the daily use of ATMs and EFT/POS, such as :

- **White thermal paper**
- Thermal paper with **black mark**
- **Personalized** thermal paper
- **Impact paper**
- **Ribbons**
- **Cleaning products**

Our range of consumables fit with all machines designed by the main 3 ATM manufacturers :

... as well as the following ATM brands :

...and even the EFT POS :

You can order **from one single unit till complete pallets** and Exatec ATM has a **permanent stock with more than 500 units** for the best sellers references, offering an immediate availability for all urgent needs.

However, it's recommended to **anticipate** your needs for 3 to 12 months, firstly to get the **best price** per quantity, and secondly to use **the cheapest transport method**.

Exatec ATM gives the option to **personalize your tickets** to communicate to your customers with a **printed message or logo**. This option can be part of your business, re-selling the room on the tickets to any advertiser who wants to communicate easily to many people. The cost of this option depends on the quantity of rolls and the number of colors to print, but this cost can really **become an income** if you resell this option.

Our rolls of paper apply to all the **technical and environmental rules** and are manufactured in the European Union with the **top quality** expected by our customers.

All **logistics data** are provided on each **specification sheet** with the weight of the roll/box/pallet, the size of the roll/box/pallet and the number of rolls per box and pallet. Thanks to this useful information, you can easily manage your forecasts and your logistics, **saving a lot of time and money**.
